- 200 400 SEATS (EACH UNIT HAS 20/25 SEATS)
- LARGE SELECTION OF 4D EFFECTS
- HIGHLY DYNAMIC 3DOF MOTION BASE
- LIBRARY OF 3D/4D FILMS
- FOR ENTERTAINMENT AND EDUCATION

The Cobra Darkride is a new attraction That takes the Cobra and places it onto a track system that will actually move the simulator. A typical application is where riders can board the Cobra in a loading bay room and then the unsuspecting rider will be moved into the 'show' area whilst sat on board the Cobra. Whether you opt for the standard Cobra format or the Cobra Darkride, you can be certain that your customers will exit the ride with a huge smile on their faces.

Electrical requirements

The Cobra motion theatre requires a 3 phase power supply of either 50 Hz at 380/415v or 60Hz at 460/480v.

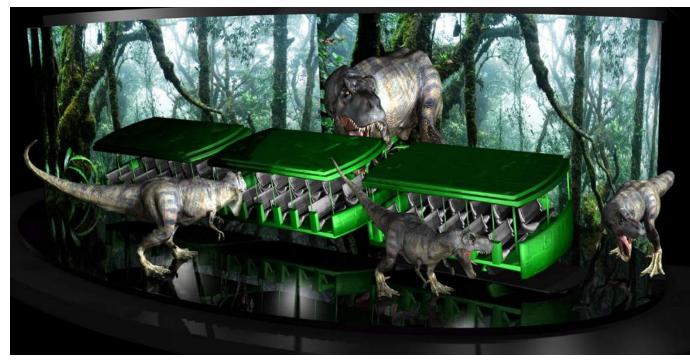

- FULL TURNKEY SOLUTIONS
- LEADING COMPANY IN IMMERSIVE TUNNEL TECHNOLOGY
- 30, 60, 90 or 120 SEATS (EACH UNIT HAS 30 SEATS)
- LARGE SELECTION OF 4D EFFECTS
- HIGHLY DYNAMIC 3DOF MOTION BASE
- 360 DEGREE 3D PROJECTION
- BESPOKE VEHICLE DESIGN
- OPTIONAL TRACK SYSTEM

Dynamic, totally immersive attraction that takes sensory and physical simulation and stimulation - to a new level! An adrenaline inducing adventure that will excite, thrill, scare and enthral in equal measures, the Immersive Tunnel is Simworx's latest innovative product. After entering the Immersive Tunnel, visitors take their seats on a 'vehicle' styled simulator and are taken on a fun-filled journey that assaults the senses physical platform drops, dynamic light, surround sound and 3D film projected to the front and both sides of the vehicle combine to give the most realistic experience possible. We can also include a track so that riders board the vehicle in a loading bay, that subsequently moves into the main show area.

Each 'vehicle' unit of 30 seats sits upon a highly dynamic, 3DOF motion base and is surrounded by 360 degree

3D film projection which, combined with our range of 4D effects, results in an unrivalled attraction to entertain and educate.

- CUTTING EDGE RIDE TECHNOLOGY

Simworx has partnered with MONDIAL - one of the leading amusement ride manufacturers in the business, bringing an all new range of technologies together for a breathtaking new attraction.

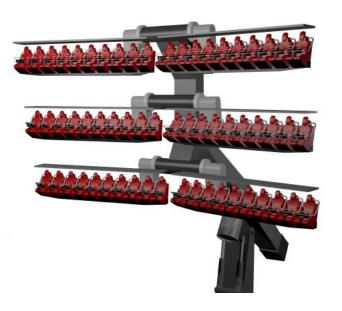

The Flying Theatre enables the rider to experience unique movements during a movie being played on a huge dome screen. The riders are able to move up and down, sideway to both sides, forward and backward. The sensation of flying is enhanced as the riders legs are dangling free. Combining this with Simworx's world renowned expertise in delivering high quality 3D Audio Visual solutions, ensures that operators and their riders will be left amazed by the experience.

4 seater robots on a track system and combined with AV and special effects packages to produce one of the best advanced dark rides in the world.

High throughput capacities and custom designed AV solutions (including our patent pending AV dome dollies) combined with amazing show effects, can really bring the ultimate in ride technology to your attraction.

Need Something Totally customised?

Simworx can create a bespoke theatre, a made-to-measure simulation attraction or a specially commissioned film and experience based around your venue. We can custom design and implement a full audiovisual experience for you to complement your existing attraction and performances, or devise something completely new.

Dynamic motion floors, vibrating floors, motion seating platforms, moving scenics and space ship simulators have all been created and crafted by our highly skilled and experienced design engineering team. Whatever your requirements, no matter what size of your venue, indoors or outdoors, Simworx will work with you to create something exciting, stimulating, dynamic and sensationally unique.
